

Message from Mayor

Welcome to our Village, “Proud History – Bright Future”. We trust you will enjoy your visit, we are proud of our community and we want you to feel at home here. We trust you will enjoy your visit: we are proud of our community and we want you to feel at home here.

Living and or visiting Delburne allows one to slow down the pace yet still have many city living benefits. Our village provided a quality of life that is friendly and relaxed, offset with successful businesses in our light industrial park. One technical company designs and manufactures noise reduction components. We also host a foundry in Delburne. A further mix of service and retail businesses, along with our clean air and excellent water, provides a high quality small community lifestyle.

We offer most amenities and services of larger communities. Our businesses strive to offer low prices combined with friendly personal service. Homes and property are reasonable prices, there are a variety of modern recreation facilities, our parks and playgrounds are spacious and well equipped, and our school (K – 12) is within easy walking distance of every residence.

Those seeking business opportunities will find a pleasant and most knowledgeable staff in the Village Office that are willing to assist and also provide information together with potential facilitation. Our Economic Development Committee and members of the Delburne Chamber of Commerce are available to assist as well. We are also a member of the Central Alberta Economic Partnership (CAEP) and have access to the information highway through Business Awareness Information System (BAIS). Check us out – you’ll like what we have to offer.

We are a partner in the “Boomtown Trail” that accesses many tourist attractions between Camrose and Strathmore. One attraction that draws people to Delburne is Fawn Meadows Golf and Country Club. Bring your clubs and try out the course. You’ll love it!

As we enter 2009, you will note that the second phase of the Fawn Meadow estates subdivision development is completed and presently there are 19 lots left for purchase adjacent to the Golf and Country Club. Delburne recently annexed three quarters of land south of the previous Village boundary. Two of the parcels are zoned Residential and one quarter is zoned Industrial and Highway Commercial. This more than doubles Delburne’s previous land area and opens up tremendous Industrial, Retail and Residential opportunities.

Consider Delburne for living, for visiting – we have “lots” to offer!

Bob Manning, Mayor of Delburne
